

ADVANCES IN ATMOSPHERIC SCIENCES

Vol.10 No.1 1993

CONTENTS

- Numerical Study for Potential Predictability of Short-Term Anomalous Climate Change Caused by El Nino
..... *Ni Yunqi* (倪允琪), *Lin Wuyin* (林武银) and *Wang Wanqiu* (王万秋) (1)
- An Aridity Trend in China and Its Abrupt Feature in Association with the Global Warming
..... *Fu Congbin* (符淙斌) (11)
- Stable and Unstable Eigensolutions of Laplace's Tidal Equations for Zonal Wavenumber Zero
..... *Rolf Mütter* (21)
- A Further Inquiry on the Mechanism of 30-60 Day Oscillation in the Tropical Atmosphere
..... *Li Chongyin* (李崇银) (41)
- One Possible Mechanism for the Principal Mode of Atmospheric Low-Frequency Variability in the
Northern Hemisphere Winter *Wang Guomin* (王国民) (54)
- Unstable Tropical Air-Sea Interaction Waves and Their Physical Mechanisms
..... *Zhang Renhe* (张人禾) and *Chao Jiping* (巢纪平) (61)
- Large Scale Aspects of India-China Summer Monsoon Rainfall
..... *R. H. Kripalani* and *S. V. Singh* (71)
- Effect of Counter-Gradient in the Computation of Turbulent Fluxes of Heat and Moisture in a
Regional Model *S. S. Vaidya*, *V. N. Lykossov* and *S. S. Singh* (85)
- Aircraft Observations of Electrical Conductivity in Warm Clouds
..... *P. Ernest Raj*, *P. C. S. Devara*, *A. M. Selvam* and *A. S. R. Murty* (95)
- Linear Momentum Approximation and Frontogenesis Caused by Baroclinic Ekman Momentum Flow
..... *He Jianzhong* (何建中) (103)
- A Hydrometeorological Analysis of the Severe Rainstorm of 20-22 September 1900 over the Gangetic
West Bengal *P. R. Rakhecha*, *B. N. Mandal*, *A. K. Kulkarni* and *R. B. Sangam* (113)
- Hurricane Forecasts in the FSU Models
..... *T. N. Krishnamurti*, *H. S. Bedi*, *K. S. Yap* and *D. Oosterhoj* (121)
- Brief News of International Workshop on Climate Variabilities (IWCV) Held on July 13-17, 1992 in Beijing
..... *Huang Ronghui* (黄荣辉) and *Zhang Renhe* (张人禾) (133)
- The Fourth International Symposium on Asian Monsoon Held in Japan
..... *Wu Guoxiong* (吴国雄) (134)

No.2

The Climatic Effects of the Stratospheric Volcanic Ash

..... *Qian Yongfu* (钱永甫) (135)

A Study of the Radiation—Climate Effect of Aerosol over Beijing Area

..... *Qiu Jinhuan* (邱金桓) and *Wang Kaixiang* (王开祥) (147)

Studies on the Northern Early Summer Teleconnection Patterns, Their Interannual Variations and Relation to Drought / Flood in China..... *Shi Neng* (施能) and *Zhu Qiangen* (朱乾根) (155)

Large Scale Perturbations in Extratropical Atmosphere—Part I: On Rossby Waves

..... *Y. L. McHall* (169)

Large Scale Perturbations in Extratropical Atmosphere—Part II: On Geostrophic Waves

..... *Y.L. McHall* (181)

Quasi-40-Day Oscillation and Its Teleconnection Structure together with the Possible Dependence on Conversion of Barotropic Unstable Energy of Temporal Mean Flow *Xu Jianjun* (徐建军) (193)

Some Preliminary Results on Pilot Study of Global Change in China

..... *Chen Panqin* (陈泮勤) and *Yan Zhongwei* (严中伟) (201)

Modelling of Indian Monsoon Rainfall Series by Univariate Box—Jenkins Type of Models

..... *S.D. Dahale* and *S.V. Singh* (211)

A Universal Spectrum for Interannual Variability of Monsoon Rainfall over India

..... *A. Mary Selvam* (221)

A Sensitivity Study of IAP AGCM to Radiation Changes: Climate Simulation of 125kyr and 115kyr before Present

..... *Wang Huijun* (王会军) (227)

Topography and the Non-linear Rossby Wave in the Zonal Shear Basic Flow

..... *He Jianzhong* (何建中) (233)

A New Multidimensional Time Series Forecasting Method Based on the EOF Iteration Scheme

..... *Zhang Banglin* (张邦林), *Liu Jie* (刘洁) and *Sun Zhaobo* (孙照渤) (243)

On the Seasonal Transition and the Interannual Variability in Global Kinetic Energy at 500 hPa, Accompanied with Anomalies of Energy during the 1982 / 83 ENSO *Qiu Yongyan* (仇永炎) (248)

An Elegant Coupled Model

..... *Chanchal Guha-Roy* and *Dilip Kumar Sinha* (257)

No.3

- Three-Dimensional Numerical Simulations of the Effects of a Cold Water Surface on the Evolution and
Propagation of Thunderstorms
..... *Kong Fanyou* (孔凡铀), *Huang Meiyuan* (黄美元) and *Xu Huaying* (徐华英) (261)
- Energetics Constraint for Linear Disturbances Development
..... *Y.L. McHall* (273)
- The Propagation of Disturbances Excited by Low-Frequency Oscillations in the Tropics
..... *Lu Peisheng* (卢佩生) (287)
- Some Effects of Rotation Rate on Planetary-Scale Wave Flows
..... *Li Guoqing* (李国庆), *Robin Kung* and *Richard L. Pfeffer* (296)
- Methane Production, Emission and Possible Control Measures in the Rice Agriculture
..... *Wang Mingxing* (王明星), *Shangguan Xingjian* (上官行健), *W. Reiner* et al. (307)
- Constructions and Applied Examinations of a Kind of Square-Conservative Schemes in High Precision
in the Time Direction *Ji Zhongzhen* (季仲贞) and *Wang Bin* (王斌) (315)
- Response of the Intensity of Subtropical High in the Northern Hemisphere to Solar Activity
..... *Xu Qun* (徐群) and *Yang Qiuming* (杨秋明) (325)
- Numerical Simulation of Regional Short-Range Climate Anomalies
..... *Yang Fanglin* (杨芳林) and *Yuan Chongguang* (袁重光) (335)
- Improving Numerical Weather Prediction in Low Latitudes by Optimizing Diffusion Coefficients
..... *Liu Jinda* (刘金达) (345)
- The Southern Oscillation / Northern Oscillation Cycle Associated with Sea Surface Temperature in the
Equatorial Pacific *Chen Lieting* (陈烈庭) and *Fan Zhen* (樊真) (353)
- Lidar Measurements of Aerosols in the Tropical Atmosphere
..... *P.C.S. Devara* and *P. Ernest Raj* (365)
- Tropical Stratospheric Circulation and Monsoon Rainfall
..... *A.B. Sikder*, *S.K. Patwardhan* and *H.N. Bhalme* (379)

No.4

Meteorological Satellite TIROS-N TOVS Remote Sensing of Atmospheric Property and Cloud

..... Zhao Bolin (赵柏林), Zhu Yuanjing (朱元竞), and Zhang Chengxiang (张呈祥) (387)

Group Velocity of Anisotropic Waves—Part I: Mathematical Expression

..... Yong L. McHall (393)

Group Velocity of Anisotropic Waves—Part II: Conservative Properties

..... Yong L. McHall (407)

The Vertical Transport of Air Pollutants by Convective Clouds. Part I: A Non-Reacting Cloud Transport Model

..... Kong Fanyou (孔凡铀) and Qin Yu (秦 瑜) (415)

Diagnostic Study of a Winter Snowstorm Event

..... Shou Shaowen (寿绍文) and Zhu Aimin (朱爱民) (428)

Study on Atmospheric Travelling Wave Solutions and Review of Its Present Developments

..... Huang Sixun (黄思训) and Zhang Ming (张 铭) (435)

An Improved Splitting Method

..... Wang Bin (王 斌) and Ji Zhongzhen (季仲贞) (447)

The Relationship between the Wintertime Blocking over Greenland and the Sea Ice Distribution over North Atlantic

..... Fang Zhifang and John M. Wallace (453)

Nondispersive Periodic Solution of a Barotropic Semi-Geostrophic Model

..... He Jianzhong (何建中) and He Jinhai (何金海) (465)

Convective and Stratiform Cloud Rainfall Estimation from Geostationary Satellite Data

..... Li Jun (李 俊), Wang Luyi (王路易) and Zhou Fengxian (周凤仙) (475)

On the Spatio-Temporal Variations of the Tropopause Height over India and Indian Summer Monsoon Activity

..... J.R. Kulkarni and R.K. Verma (481)

Studies of Nitrous Oxide Emission from Farmlands in North China

..... Wang Shaobin (王少彬), Su Weihai (苏维瀚), and Song Wenzhi (宋文质) (489)

Predictability of the 500 hPa Height Field

..... Chen Yingyi (陈英仪) (497)
